

RULES FOR NEW CARDS

Penalty

With the penalty card, you can get 1 or 2 footballs.

Play the penalty card as follows:

1. Give the penalty card to your rival.
2. Your rival shuffles the penalty card with the 2 cards in their hand (they can be goalkeepers if they have them) and places the 3 cards face down in the centre of the table.
3. Then, you choose 1 of the 3 face-down cards.
 - If it is not a goalkeeper or the penalty card: **IGOOAAL!** You get 2 footballs of the colours you want from the rival's goal area.
 - If it is a goalkeeper or your penalty card: **SAVE!** You only get 1 football of the colour you choose.

Golden Football

It becomes a football of the colour of your choice and no card can take it from you.

Offside

At any time of a game, it can cancel another player's striker, preventing them from taking the ball.

IMPORTANT: The player that uses the offside card does not draw any cards until their next turn.

The Crowd

Place the card on the table, cover it with your hand, and cheer "Go, go, go!"

The other players must place their hands on top of yours.

The last one to do so must give you a football of the colour you choose (including the golden football).
